## 1. INTRODUCTION

The Kellogg Botany facility is a food manufacturing plant that has been part of the Botany Community since 1928, manufacturing cereal for Australians.

The Kellogg's Botany Plant, is the holder of Environment Protection Licence No 823 under the Protection of the Environment Operations Act 1997 (POEO Act). As such, Kellogg (Aust.) Pty. Ltd. is required to comply with the requirements of the Protection of the Environment Legislation Amendment Act 2011 (POELA Act) by preparing and implementing a Pollution Incident Response Management Plan (PIRMP or Plan) for its Botany Plant.

The purpose of this document is to share relevant information in the event of a pollution incident with neighbours, the broader community and interested parties. Such information includes:

1. Emergency services contact details
2. Kellogg contact details
3. Initial precautionary measures to be taken in the event of an adverse pollution incident at the Kellogg Botany Plant.

## 4. NOTIFYING A POLLUTION INCIDENT TO NEIGHBOURS

### 4.1 COMMUNICATION MECHANISMS

The communication response to impacted residents will depend on the circumstances of the event, and any direction that may be provided by the EPA and or emergency services.

Depending on the nature and circumstances of the incident, this may (but does not always require), approaches and systems such as the following to provide early warnings and updates to neighbours:

- door knocks of affected neighbours;
- letter drops to affected neighbours;
- sending out a media release; or
- posting information on Kellogg Australia's website and/or social media;

A 24 hour Community Hotline number 02 9384 7444 sign is currently posted to the boundary fence of the Botany Plant for neighbours to contact Kellogg Botany Security on a 24 hour, 7 days per week basis.

### 4.2 INFORMATION TO BE PROVIDED

In the event of a pollution incident, communication to the community may include specific information to minimise the risk of harm. For example, this may include instructions to close windows and doors and remain inside for incidents involving emission of air pollutants.

The information to be provided would be dependent on the nature and circumstances of the event.
